EDUCATION

- Nanjing University of Information Science & Technology** 2018-2022
B.S. in Atmospheric Sciences **Advisor:** Juan Li GPA: 3.0/4.0
- Second Institute of Oceanography, MNR** 2022-2025
M.S. in Physical Oceanography **Advisor:** Qiaoyan Wu GPA: 4.0/4.0

SKILLS & INTERESTS

Programming: Python, L^AT_EX, Matlab, Fortran

Skills: Dynamic Meteorology, tcipyPI, WRF, Overleaf

Field of Interest: Tropical Cyclone Dynamics, Rapid Intensification, Eyewall Replacement Cycles, Numerical Simulation, Data Science

Language Proficiency: TOEFL iBT: 81

Hobbies: Basketball, Physics, Reading

ACHIEVEMENTS

- Full marks (4.0/4.0) in Dynamic Meteorology at undergraduate (92/100) and graduate level (100/100)**
- First class scholarship for graduate students, SIO** 2023
- Second class scholarship for graduate students, SIO** 2024
- Oral presentation at Xiamen Symposium on Marine Environmental Sciences, Xiamen** 2025
- Excellent oral presentation at The 2nd Future Atmospheric Science Forum, Suzhou** 2026

PUBLICATIONS

Modulation of Typhoons with Concentric Eyewalls in the Western North Pacific by ENSO

Authors: Qingyang Xiong, Ping Lu, and Pak Wai Chan.

Submitted to *Journal of Climate*, 2026.

Net Contributions of Multiple Oceanic Warm and Cold Thermal Events to Tropical Cyclone Intensity Revealed by Idealized Coupled Simulations

Authors: Wenting Lou, Tongya Liu, Jiacheng Hong, Yipeng Guo, Qingyang Xiong, Han Zhang, Changlin Chen, Jinlin Ji, and Weijie Sun.

Published in *Geoscience Letters*, 2026.

DOI: 10.1186/s40562-026-00491-0

The Intrinsic Timing Relationship Between Tropical Cyclone Maximum Intensification Rate and Lifetime Maximum Intensity

Authors: Qingyang Xiong and Qiaoyan Wu.

Published in *Geophysical Research Letters*, 2025.

DOI: 10.1029/2024GL113158
